## ABOUT THE FDP

Participants in this FDP can learn advanced skills in the following areas: Learning, diversity in the classroom, leading discussions, instructional technologies, designing assignment, lesson planning, and design courses at a variety of levels. This FDP helps participants improve their skills as learning-centered teacher. Participants study how to identify and select challenging and transformative learning objectives.

## OUTCOME OF FDP

This FDP transports participants out of the classroom to meet face to face with internationally renowned experts. This reflects on learning exemplary to teaching practice and receiving guidance reflecting on crucial topics. Demands and needs change time to time, so the teacher should also undergo professional and personal development to benefit both the students and themselves as well. This FDP is an initiative to improve teaching strategies for improved learning of students, helping them to generate their interest and eagerness for more opportunities of learning.
